

Computer Laboratory Table

ECFS UL[®] Listed System Computer Table

1-1/8" High Pressure Laminate Top
Rolled front edge
Available in hundreds of sizes, colors and patterns

Large, reversible, steel wiring raceway with removable and latchable door.

11 gauge tubular steel legs
Available in four colors
Can deliver power, audio, or any type of data through leg to user, eliminating user need for CPU access.

Optional steel CPU holder: slide-out and twist
(other styles and models are available)

Under Desk

Keyboard / Mouse Trays

CPU Holders of various types

Locking Storage

Drawers

Modesty Panel Extensions

Electrical

Shielded Concealed Power Transmission

Up to 4 circuits can be accessed, transmitting circuit balanced power to 25+ workstations in a row.

Electrical System is completely concealed by the wiring raceway.

Data Extensions

Audio, Power, or any type of data can be transmitted from the CPU, through the leg to the tablefront.

These accessories allow convenient user access, while allowing total CPU security and administrative control.
